

SAS Credits : The new corporate program

SAS Credits is a loyalty program designed for companies that are not already in a contracted relationship with SAS. No matter whether employees fly once a year or once a week – with SAS Credits the company cuts corporate travel costs from the very first flight.

The program gives corporate customers the possibility to earn and redeem points, called SAS Credits, in all service classes every time an employee travels on business with SAS, Blue1 or Widerøe. The earned SAS Credits can then be used for purchasing new tickets.

Please visit below URL for registration. There is no joining fee and no limit to how many SAS Credits can be earned. SAS Credits is available in all booking channels.
